

THE GREAT STRIKE.

Pittsburg, July 22.—It is difficult to get any reliable facts at this hour. The entire eastern end of the city is at the mercy of the mob, which is hourly increasing. Anarchy and violence have taken possession of the city, and mob law reigns supreme.

The Pennsylvania tracks for a distance of a quarter of a mile westward from the outer depot is a sheet of flame. The mob began pushing the burning cars towards the round house some time ago, their intention being to destroy the extensive shops of the company and the Union depot.

The number of people slain since dark is very large, and the exact numbers will not be accessible for several days. The summing up of the riot at Twenty-eighth street this afternoon shows a total of 20 killed and 29 wounded. The hillside was dotted with dead and dying.

Pittsburg, July 22.—All the cars between Twenty-eighth and Thirtieth streets are burned. Fully two hundred and fifty cars were burned at daylight. The rioters got the captured guns in position and fired one shot, when the soldiers in the round house opened fire, covering the gun with musketry and drove the gunners from the cannon. Two were killed and several wounded before the cannon was abandoned. The machine shops between Twenty-fifth and Twenty-sixth streets are burned. The soldiers sallied from the round house but were driven back. The soldiers then formed a solid column and came out through the lumber yard and went down Twenty-fifth to Liberty street with a Gatling gun in front and made for the Allegheny arsenal.

When they arrived at the arsenal, the United States troops on guard refused them admittance. Left exposed, the Philadelphia troops turned their Gatling gun on the crowd, killing thirty, mostly strikers and citizens. The round house, containing seventy freight engines and machine shops are entirely destroyed by fire.

It is estimated that the damage done to railroad property is \$2,000,000.

Pittsburg, July 22, 3 o'clock.—The Union depot is in flames.

Pittsburg, July 22.—The railroad buildings destroyed were as follows: Two round houses; one machine shop; superintendent's office; car repair shop and blacksmith shop; three or four of houses; Union transfer depot and the offices of the Pullman Car Company; laundry and offices; train dispatcher's office; powder house; Union Depot Hotel; Pan Handle railroad engine house, general offices and freight depot, and the freight depot of the Adams Express Company. The freight depot of the Pittsburg, Cincinnati and St. Louis and the general offices of the same company were fired at 4:30 o'clock this afternoon.

The citizens are organizing and marching to the scene of the conflagration to prevent further damage. All are armed with concealed weapons and heavy base ball bats.

Harrisburg, Pa., July 22.—The railroad men have struck here. Passenger trains, not containing troops, are allowed to pass.

[Monday Noon Dispatches.]

WASHINGTON, July 23.—The militia ordered from various points in Pennsylvania was stopped by the strikers. Loaded coal cars are run from sidings and wrecked on the main track. The freight business is stopped on the Southern Ohio roads. Ohio and Mississippi have sent no freight west from Cincinnati. Freight trains were stopped at Dunkirk, but the mail and passengers were allowed to proceed. A compromise is progressing at Indianapolis—meantime the trade over the Bee Line is unobstructed.

The regular night mail trains were abandoned on the Vandalia road.

The bridge over the Schuylkill, which cost \$150,000, was fired and totally destroyed, the object in burning the bridge being to prevent the passage of troops towards Harrisburg.

The immense grain elevators at the corner of Grant and Washington streets, Pittsburg, were burnt.

The citizens have organized

vigilant committees. The soldiers who escaped from the round house are entrenched ten miles up the river.

Governor Hartranft this morning, confessing his inability to maintain order, makes a formal order on the United States authorities for protection. The feeling at Kansas City where many roads centre, is feverish. The strike on eastern roads went into effect at midnight.

WASHINGTON, July 23.—The Federal Government, in a feeble kind of way, is moving troops to Kansas City where many roads centre, is feverish. The feeling at Kansas City where many roads centre, is feverish. The strike on eastern roads went into effect at midnight.

The following curiously involved sentence, which is official, gives this idea: "It is not the purpose of the Government to use United States troops to merely protect railroad property or to insure the safe transportation of the mails, except incidentally, while protecting its own property." It is understood that Gen. Sherman and Lt. Gen. Sheridan will be recalled at once.

Hancock has been ordered to assume personal command in Pennsylvania.

Gen. Schofield, from West Point, has been ordered to report to Hancock.

St. Louis, July 23.—It is reported that affairs look serious at Chicago and Buffalo.

The Central Pacific Railroad Company's dispatch from San Francisco says they have rescinded the resolution reducing wages.

The Philadelphia Board of Brokers have decided to make no quotations public. The Board has adjourned—a scheme to buy stock cheap from frightened widows.

The strongest rallying cry of the rioters at Pittsburg is: "Let her burn, boys, it will give us work."

WASHINGTON, July 24.—Governor McCreary, of Kentucky, has no apprehension of trouble in Kentucky. The only trains moving from Cleveland are short accommodations.

The firemen, switchmen and brakemen at Slocum on the Southern Canada road have struck.

A meeting of citizens at Columbus, Ohio, took a serious view of the situation, and five hundred of them enrolled themselves as special police. The municipal authorities have garrisoned the points likely to be molested.

The Missouri Pacific road has restored wages. No strikes on that road is probable.

A very turbulent meeting was held at Omaha, Nebraska. After the meeting the roughs paraded the town hooting but did no violence.

The Mayor of St. Louis has ordered the saloons closed. The strikers have enforced an order that food for stock is all that can be allowed to pass. Many industries are paralyzed for want of fuel. An overture for an omnibus compromise of all roads centering at East St. Louis, has failed. The strikers are orderly but express a determination to fight it out. A number of strikers have been commissioned as special police by the Mayor, to guard railroad property. The strikers meeting nominated this special force.

The night switchmen on the Michigan Central have struck. There is no undue excitement in Chicago.

Jersey City is disorderly but controlled.

Governor Beidle has issued a proclamation requesting well disposed people to repair to their homes.

Troops will be moved from Jersey City to Trenton and other places to prevent their fraternization with the mob.

The short lines have been run from Pittsburg by made-up lines. This resulted in a collision two miles above Sharpsburg. The engines closed in on each other like a telescope. Both engineers, the express messenger and mail agent, and three passengers were instantly killed and a number dangerously wounded.

The Seventh Regiment, after assembling at their armory in New York, were shouted and hissed at by a large crowd of tramps and roughs. The streets were cleared by the police. The troops behaved well.

The soldiers at Reading, Pa., fired on the citizens indiscriminately, killing five and wounding twenty-five including five policemen and two women.

John Swinton is selected to preside at Tompkins Square tomorrow night.

New York, July 24.—The Central Railroad has stopped selling tickets beyond Rochester.

The night in Harrisburg was very disorderly until the citizens took the matter in hand and dispersed the rioters, who were parading the streets. No shooting was required. For a few hours telegraphers were compelled to abandon their office. The mob attacked the offices of the Lake Shore paint shop and a number of cars.

WESTFIELD, MASS., July 24.—A company of soldiers, after killing several rioters were driven from their quarters. Some of the company were shot by the rioters, who got possession of Whitfield Company's rifles. Only postal cars were allowed to leave Indianapolis up to midnight.

WASHINGTON, July 24.—Two companies of U. S. troops passed Poughkeepsie en route for Baltimore from Lake Shore. The workingmen at San Francisco, ten thousand strong, adjourned after wrecking a Chinese wash-house. Working their way homeward in squads they played all kinds of pranks on the Chinese. Five hundred policemen prevented them from reaching the Chinese quarters. Stones and clubs were used but no fire arms. The demonstration seems to have been a frolic and by two o'clock all was quiet.

There have been no overt acts this morning. The strikers are becoming organized, and indications are that they will aid the municipal authorities in saving property, if the awkward militia squads stop their wild shooting.

Trade and travel in the disturbed districts, which extend from the Mississippi to the Atlantic and from Mason and Dixon's Line to the Lakes, continues paralyzed.

WASHINGTON LETTER.

Washington, D. C., July 21, 1877.

The first of the coming elections will be those in Kentucky and Alabama. In those States the voting will be practically unanimous. Very many of the blacks have always been inclined to vote with their old masters, and now that the delusive expectation of benefit from the general government has been dispelled they will do so. The much talked of division among the Southern people will be chiefly among the blacks. California and Vermont follow on Sept 5th considerable interest being felt in the result in California. There is but one opinion here, and that is that the State will go Democratic on Sept 10th. Excepting Ohio, where the election is held Oct 9th, more attention is given to Maine than any other State. The overpowering influence of Mr. Blaine among Republicans there is well known result. Private advices would seem to indicate less interest within than outside the State, and no reliable estimate of the chances can now be made. Ohio Democrats here report the constant receipt of cheering intelligence.

Most thoughtful persons regret the use of Federal troops in any State purposes connected with State affairs. There is danger in it. But it is gratifying fact that those sent to Martinsburg the other day have been so prudently handled by Gen. French, their commander.

General Banks as a candidate for Speaker rises again in the Administration newspapers. The General is understood to have a policy which he thinks would do more in the way of conciliation than any other. It depends mainly, of course, on his elevation to the Speakership.

The particular means assistant Secretary McCormick is taking just now of getting his name in papers is to authorize the statement that he will resign his office rather than place on the Republican National Committee. Thrown into prominence by the scandalous campaign of 1876, and given office under the new Administration, this man has managed to keep his name in all the newspapers all the time. Except the "woman in another column, picking grapes for Speer's Port Wine" no person has been better advertised than Mr. McCormick. None will be sooner forgotten after the

advertisements are withdrawn.

There were congratulations all around when Gen. Howard sent us, a week ago, the news of his victory over the Indians, and sanguine people seemed to see Chief Joseph and his band in demoralized flight. But in the hands of General Howard the pen appears to be mightier than the sword. The Indians are not running, or were not at last accounts. This crying of victory when there was no victory is intensifying the feeling of distrust of Gen. Howard which has long been common among army officers.

The Mexican question is receiving Cabinet consideration to day, and it is believed such a decision will be reached as will remove all fear of war between the two countries. This Administration has resolved more, and changed its mind oftener than any of the Administrations that have gone before it.

The revenue cutter "Grant" seems to be making confusion down East. Only a few days run on one of the best known rocks on the coast of Maine and came near drowning Secretary Sherman, and now she is reported as sinking a steamer on the coast of Massachusetts. If she goes staggering through the Eastern waters in this way, she will disgrace the country. Her name is a sadly suggestive one.

So far no evidence seemed have been elicited in any way showing bribery on the part of Senator Grover of Oregon. SENOR.

HOW IT IS DONE.

The first object in life with the American people is "to get rich"; the second, how (good health) by using GUNTER'S ACQUA FLOWERS. Should you be a despondent sufferer from any of the effects of Dyspepsia, Liver complaint, Indigestion, &c., such as Sick Headache, Palpitation of the Heart, Sour Stomach, Habitual Constipation, Dizziness of the head, Nervous Prostration, Low Spirits, &c., you need not suffer another day. Two doses of August Flower will relieve you at once. Sample Bottles 10 cents. Regular size 75 cents. Positively sold by all first class Druggists in the United States.

NOTICE.

BY virtue of a decree pronounced at the May term 1877 of the Chancery Court in the suit E. Whittier vs. Hugh Dickson, et al., I will sell to the highest bidder at the Court House door in Greenville, on Monday, the 6th day of August, 1877, the lot adjacent to and cause situated between the old College lot and town of Greenville and known as the brick yard lot containing about 2 acres more or less. Said lot will be sold on six months credit in full of the right of redemption. The purchaser will be required to execute note and approved security. A lien retained. Full possession given at once with advantage of rents for a lot of brick now made on said lot.

A. W. WALKER, C. & M. This June 26, 1877.—401 u336 41 pf 58.

NON-RESIDENT NOTICE.

Jacob Myers, Adm., of Joseph Day, dec'd vs. Lagoda Day, et al.—Petition to Sell to Pay debts. A. M. Bill.

IN this case it appearing from the Petition filed that, Wm Day Elizabeth A. Fair, and her husband, James Fair, Nancy A. Balen, Emily Wall, and Margaret Wall her husband are non-residents of the State of Tennessee. It is therefore ordered that publication be made for four successive weeks in THE UNION, a newspaper published in the town of Greenville, Greene County Tennessee, notifying said non-resident Defendants to appear before the Town of Greenville County Court to be held for the county of Greene at the Court House in Greenville, on the first Monday in September next, to plead, answer or demur, to the petition of said Jacob Myers, or the same will be set for hearing as to them ex parte. Witness V. S. Maloney clerk of said court at office the 9th of July 1877.

This 16 July 1877. V. S. MALONEY, C. & C.

Ayer's Sarsaparilla

For Scrofula, and all scrofulous diseases, Erysipelas, Rose or St. Anthony's Fire, Eruptions and Eruptive diseases of the skin, Ulcerations of the Liver, Stomach, Kidneys, Lungs, Pimples, Pustules, Boils, Blotches, Tumors, Tetters, Salt Rheum, Scald Head, Ringworm, Ulcers, Sores, Rheumatism, Neuralgia, Pain in the Bones, Side and Head, Female Weakness, Sterility, Leucorrhoea, arising from internal ulceration, and uterine disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the Blood.

This Sarsaparilla is a combination of vegetable alteratives—Stillingia, Mandrake, Yellow Dock—and the Iodides of Potassium and Iron, and is the most efficacious medicine yet known for the diseases it is intended to cure. Its ingredients are so skillfully combined that the full alterative effect of each is assured, and while it is so mild as to be harmless even to children, it is still so effectual as to purge out from the system those impurities and corruptions which develop into loathsome disease.

The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it proves their experience of its usefulness.

Certificates attesting its virtues have accumulated, and are constantly being received, and as many of these cases are publicly known, they furnish convincing evidence of the superiority of this Sarsaparilla over every other alterative medicine. So generally is its superiority to any other medicine known that we need do no more than to assure the public that the best qualities it has ever possessed are strictly maintained.

PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass. Practical and Analytical Chemists. SOLD BY ALL DRUGGISTS EVERYWHERE.

TUTT'S PILLS

A distinguished physician of New York says: "It is astonishing how universally Dr. Tutt's Pills are used. In my daily rounds, I hear of them not only among the poor, but their virtues are ascribed from the mansions of the wealthy and refined. Knowing the inventor from his long connection with the medical profession, I have great confidence in their merits, and of late have often prescribed them with the happiest results in cases where I desired to make a decided impression on the liver."

Dr. Tutt has been engaged in the practice of medicine thirty years, and a long time was devoted to the study of anatomy in the Medical College of Georgia. He has the guarantee that they are prepared on scientific principles, and are free from all quackery.

He has succeeded in combining in them the heretofore antagonistic qualities of a cathartic and a purgative, and a powerful effect to increase the appetite by causing the food to properly assimilate, thus the system is nourished, and by their tonic action on the digestive organs, regular and healthy evacuations are produced. The rapidity with which

While under the influence of these Pills, of itself indicates their adaptability to nature, and hence their efficacy in curing nervous debility, melancholia, dyspepsia, wasting of the muscles, sluggishness of the liver, and chronic constipation.
